DIY  
Installation

### Quick and simple DIY installation

#### Easy installation.

Powered by the built-in rechargeable battery or connects to existing doorbell wires for constant power. Easily setup by connecting your Ring Video Doorbell to Wi-Fi through the Ring App and mounting with the included tools.

#### Never miss a visitor, or a package.

Get notifications when a package is detected within the specified zone, an exclusive Ring Protect subscription feature. If you're busy, save time and ask visitors to leave a message with pre-selected Quick Replies. It's like an answering machine for your front door.

#### Clear as day. And night.

See, hear and speak to anyone at your front door from your phone or tablet in crisp 1080p HD. With improved image sensors and sharp contrast, you'll never miss a detail - even in the dark.

## Frequently Asked Questions

### What's the difference between the Ring Video Doorbell (2nd Generation) and previous generation?

The Ring Video Doorbell (2nd Generation) has 1080p HD video (vs 720p HD on the original Ring Video Doorbell), customisable motion zones, and a revamped mounting setup that simplifies removal for battery charging. The new Video Doorbell also has improved audio quality and crisper night vision.

### How do I recharge the battery for the Ring Video Doorbell (2nd Generation)?

Using the micro-USB cable, plug the doorbell into any USB source to charge. First, remove the security screws on the base of the doorbell and lift it up and away from its mounting bracket. Once fully charged, reattach the doorbell to the mounting bracket using the included security screws.

### What is Ring Protect?

Ring Protect is an optional subscription service that lets you review, share and save every video and photo captured by your Ring Video Doorbell, plus a few extra perks. To compare and learn more about Ring Protect visit <https://ring.com/protect-plans>.

### Do I need Ring Protect to use Video Doorbell (2nd Generation)?

No. You can still use your doorbell to watch over your home and answer the door from anywhere. You'll still receive real-time notifications when anyone comes to your door, and you can answer the notifications to see, hear and speak to visitors in real time right from your mobile device.

However, without a subscription to Ring Protect, you won't be able to review any videos that you missed in real time, and you won't be able to save your videos or share them with anyone.
